SUMMARY

Product professional with 4+ years experience of successful Agile delivery in the B2B space, most recently for a $115M contract, now seeking to work on products that are the core competency for the company.

EXPERIENCE

Product Management Specialist, Attain | McLean, VA | 09/2020 - 03/2021
As team lead, proxy product owner, and business analyst, led the full product lifecycle, met release schedule deadlines, and established MVP of applications in the B2B SaaS space
- Successfully led team of 8 to launch first release of a case management application MVP for a $115M contract, leading expansion of the product in new areas
- Led product discovery sessions with users; wrote and prioritized initial epics/user stories to create product roadmaps; delivered initial release schedule
- Owned and built internal testing tool for developers, reducing bugs by 60%
- Took initiative to create a new onboarding process for new team members, improving onboarding efficiency by 80%

Product Consultant, Macedon Technologies | Reston, VA | 07/2017 - 09/2020
Led teams to launch product iterations every 2 weeks for commercial and federal clients
- Increased business process efficiency by 95% by revamping UI/UX of an application
- Led cross-functional team of 20+ to launch features into production every 2 weeks
- Presented, demoed, and ran UAT sessions for client C-level executives
- Nominated by client and won GSA IT Award for efficient and empathetic approach to resolving user issues for a $10B contract project
- Streamlined deployments, reducing an hours-long process to under 10 minutes

Web Developer, J P Systems | Remote | 05/2016 – 05/2017
Developed websites for a healthcare IT company focused on clinical interoperability
- Developed new features for jpsys.com and healthcareitinteroperability.com
- Designed and developed new mobile-friendly website for new client bestcoastmassage.com
